

# Recommendation

## Ziram 76DF FUNGICIDE

### Additional Use Directions for Almonds

#### FIFRA SECTION 2(ee) RECOMMENDATION FOR CALIFORNIA

EPA Registration No. 70506-173

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### EXTENDED USE RATE RANGE AND USE IN TANK MIXES FOR RESISTANCE MANAGEMENT:

##### Directions:

When tank-mixing with systemic fungicides for protection against shot hold, scab, anthracnose, brown rot, and leaf blight for resistance management, apply Ziram 76DF at 6-8 lbs/acre.

When applied alone, use the maximum rate of Ziram 76DF, or 8 lbs/acre. All applicable directions and all other restrictions and precautions on the EPA-registered label are to be followed.

This recommendation contains new or additional directions for use of this product, which may not appear on the package label. This recommendation is allowed under FIFRA Section 2(ee) provisions and has been submitted to the appropriate State regulatory agencies. It has not been submitted to or approved by the EPA.

This recommendation applies only to the State of California.
