

Safety Data Sheet

United Phosphorus, Inc.

Preparation Date 29-Apr-2015

Revision date 15-Feb-2016

Revision Number: 4

1. Identification of the Substance/Preparation and of the Company/Undertaking

Product identifier Product Description:

Lifeline Herbicide

Other means of identificationItem#:120SynonymsNoRegistration number(s)705

12U-901 Not Available 70506-310

Recommended use of the chemical and restrictions on useRecommended useHerbicide.Uses advised againstActivities contrary to label recomendation

Details of the Supplier of the Safety Data SheetSupplier AddressUnited Phosphorus Inc.630 Freedom Business CenterSuite 402King of Prussia, PA 19406Emergency telephone numberCompany Phone NumberEmergency telephone numberChemtrec: (800) 424-9300 (24hrs) or (703) 527-3887Medical: Rocky Mountain Poison Control Center(866) 673-6671 (24hrs)

2. Hazards Identification

Classification

OSHA Regulatory Status

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

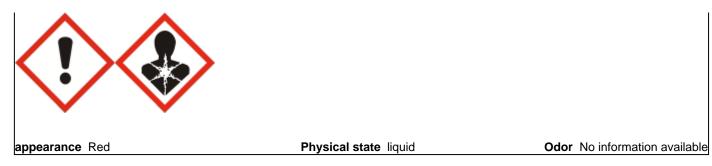

Acute toxicity - Dermal	Category 4
Acute toxicity - Inhalation (Vapors)	Category 4
Reproductive Toxicity	Category 1B
Specific target organ toxicity (repeated exposure)	Category 2

Label elements

EMERGENCY OVERVIEW

DANGER

hazard statements Harmful in contact with skin HARMFUL IF INHALED May damage fertility or the unborn child May cause damage to organs through prolonged or repeated exposure

Precautionary Statements - Prevention

Do not handle until all safety precautions have been read and understood Do not handle until all safety precautions have been read and understood Wear cold insulating gloves/face shield/eye protection Use only outdoors or in a well-ventilated area Do not breathe dust/fume/gas/mist/vapors/spray

Precautionary Statements - Response

IF exposed or concerned: Get medical advice/attention IF ON SKIN: Wash with plenty of soap and water Call a POISON CENTER or doctor if you feel unwell Wash contaminated clothing before reuse IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

Precautionary Statements - Storage

Store locked up

Precautionary Statements - Disposal

Dispose of contents/container to an approved waste disposal plant

Hazards Not Otherwise Classified (HNOC)

OTHER INFORMATION

Harmful to aquatic life with long lasting effects

· May be harmful in contact with skin

3. Composition/information on Ingredients

Chemical name	CAS-No	Weight %	Trade secret
Glufosinate ammonium	Proprietary	20 - 30%	
Propylene glycol monomethyl ether	107-98-2	8.93	

If CAS number is "proprietary", the specific chemical identity and percentage of composition has been withheld as a trade secret.

4. First aid measures

FIRST AID MEASURES

Eye contact	Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Skin contact	Wash off immediately with plenty of water for at least 15 minutes. Call poison control center or doctor for treatment advice.
Inhalation	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a physician or poison control center immediately.
Ingestion	Never give anything by mouth to an unconscious person. Do not induce vomiting without

	medical advice. Call a physician or poison control center immediately.	
Protection of First-aiders	Use personal protective equipment.	
Most Important Symptoms and Effe	cts, Both Acute and Delayed	
Most Important Symptoms and Effects	No information available.	
Indication of Any Immediate Medical Attention and Special Treatment Needed		
Notes to physician	Treat symptomatically.	
5. Fire-fighting measures		
	5. Fire-fighting measures	
Suitable extinguishing media	5. Fire-fighting measures	
	5. Fire-fighting measures 302). Water spray. alcohol-resistant foam.	
	O2). Water spray. alcohol-resistant foam.	
Use:. Dry chemical. Carbon dioxide (C Unsuitable extinguishing media Specific hazards arising from the cl	O2). Water spray. alcohol-resistant foam. No information available.	

Explosion data

Protective equipment and precautions for firefighters

Use personal protective equipment. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions	Provide adequate ventilation. Avoid contact with skin, eyes and inhalation of vapors. Use personal protective equipment. Remove all sources of ignition. Take precautionary measures against static discharges. Wash thoroughly after handling.		
Environmental Precautions			
Environmental precautions	Prevent further leakage or spillage if safe to do so. Prevent product from entering drains.		
Methods and material for containm	nent and cleaning up		
Methods for Clean-Up	Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labelled containers.		
	7. Handling and Storage		
Precautions for safe handling			
Handling	Wear personal protective equipment. Do not breathe vapours or spray mist. Avoid contact with skin and eyes. Remove all sources of ignition. To avoid ignition of vapours by static electricity discharge, all metal parts of the equipment must be grounded. Do not eat, drink or smoke when using this product.		
Conditions for safe storage, including any incompatibilities			
Storage	Keep containers tightly closed in a cool, well-ventilated place. Keep away from heat. Protect		

an area where cross-contamination with pesticides, fertilizers, food or feed could not occur.

incompatible materials

Strong acids. Strong oxidizing agents. Bases.

8. Exposure Controls/Personal Protection

Exposure guidelines

Chemical name	ACGIH TLV	OSHA PEL
Propylene glycol monomethyl ether	STEL: 100 ppm TWA: 50 ppm	(vacated) TWA: 100 ppm (vacated) TWA: 360 mg/m ³ (vacated) STEL: 150 ppm (vacated) STEL: 540 mg/m ³
Engineering controls	Investigate engineering techniques to reduce exposures. Local mechanical exhaust ventilation is preferred. Consult ACGIH ventilation manual or NFPA Standard 91 for design of exhaust systems.	
Personal protective equipment		
Eye/Face Protection	<i>,</i> ,	d eye contact. Where there is potential for eye contact have eye ole. Safety glasses with side-shields.
Skin protection	Wear protective gloves/clo	othing. Socks and footwear.
Respiratory protection	flushing equipment available. Safety glasses with side-shields. Wear protective gloves/clothing. Socks and footwear. Where airborne exposure is likely, use NIOSH approved respiratory protection equipment appropriate to the material and/or its components. Full facepiece equipment is recommended and, if used, replaces need for face shield and/or chemical goggles. If exposures cannot be kept at a minimum with engineering controls, consult respirator manufacturer to determine appropriate type equipment for given application. Observe respirator use limitations specified by NIOSH or the manufacturer. For emergency and other conditions where there may be a potential for significant exposure, use an approved full face positive-pressure, self-contained breathing apparatus. Respiratory protection programs must comply with 29 CFR 1910.134. For emergency and other conditions where exposure limit may be significantly exceeded, use an approved full face positive-pressure, self-contained breathing apparatus or positive pressure airline with auxilliary self-contained air supply. Respiratory protection programs must comply with 29 CFR 1910.134.	

General hygiene considerations

When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use. Wash hands and face before breaks and immediately after handling the product. Wear suitable gloves and eye/face protection.

9. Physical and Chemical Properties

Information on basic physical and chemical properties

Physical state appearance color	liquid Red No information available	Odor	No information available
Property pH Melting point/freezing point Boiling Point/Range Flash Point Evaporation Rate flammability (solid, gas) Flammability limit in air	VALUES 7 No information available No information available 156 F / 69 C No information available No information available	<u>Remarks/ • Method</u>	
Upper Flammability Limit Lower Flammability Limit vapor pressure Vapor Density Specific gravity Water solubility Solubility in Other Solvents Partition coefficient: n-octanol/wat Autoignition temperature decomposition temperature	No information available No information available No information available No information available 1.15 @20 C No information available No information available er No information available No information available No information available		

Viscosity, kinematic	No information available
Dynamic viscosity	No information available
Explosive properties	No information available
Oxidizing properties	No information available
OTHER INFORMATION

density	No information available
Bulk density	No information available

10. Stability and Reactivity

Reactivity no data available

Chemical stability

 Stable under normal conditions. Hazardous polymerisation does not occur.

 Possibility of hazardous reactions

 None under normal processing.

 Conditions to avoid

 Keep away from open flames, hot surfaces and sources of ignition.

 incompatible materials

 Strong acids. Strong oxidizing agents. Bases.

 Hazardous decomposition products

 Carbon oxides. Carbon monoxide. Oxides of sulfur.

11. Toxicological Information

Information on Likely Routes of Exposure

Product information	Lifeline/Interline : Acute oral LD50 (rat) - >5,000 mg/kg Acute dermal LD50(rat/rabbit) = >2,000 mg/kg Acute inhalation LC50 (rat) 4 hr = >3.133 mg/L [>12.5 mg/L 1 hr] Primary eye irritation (rabbit) = Not an irritant Primary dermal irritation (rabbit)= Not an irritant Dermal sensitization = Not a sensitizer
Inhalation	May cause irritation of respiratory tract. May be harmful if inhaled.
Eye contact	May cause temporary eye irritation.
Skin contact	May cause irritation.
Ingestion	HARMFUL IF SWALLOWED.

Chemical name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Glufosinate ammonium	1514 mg/kg (rat)	> 2000 mg/kg (rat)	2.164 mg/l (rat)
Propylene glycol monomethyl ether 107-98-2	= 5200 mg/kg(Rat)	= 13 g/kg (Rabbit)	= 54.6 mg/L(Rat)4 h > 24 mg/L(Rat)1 h

Information on Toxicological Effects

Symptoms

No information available.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

sensitization	No information available.
Mutagenic effects	No information available.

Carcinogenicity	The information below indicates whether any agency has listed any ingredient as a carcinogen.
Reproductive effects	Not Available.
STOT - Single Exposure	No information available.
STOT - repeated exposure	No information available.
Chronic toxicity	Avoid repeated exposure.
Target organ effects	Respiratory System, EYES, skin, Central Nervous System (CNS).
Aspiration hazard	No information available.
Numerical Measures of Toxicity	- Product information

Numerical Measures of Toxicity - Product information

LD50 Oral	> 5000 mg/kg (rat)		
LD50 Dermal	> 2000 mg/kg (rat)		
LC50 Inhalation:	LC50/inhalation/4h/rat = >	12.5	mg/l

12. Ecological Information

ecotoxicity

Do not apply directly to water to areas where surface water is present or to intertidal areas below the mean high water mark. Do not clean equipment or dispose of equipment washwater in a manner that will contaminate water resources or areable land. Do not apply when weather conditions favor drift from treated areas.

Persistence/Degradability

No information available.

Bioaccumulation/Accumulation

Bioaccumulative potential.

Chemical name	Log Pow
Propylene glycol monomethyl ether 107-98-2	-0.437

Other Adverse Effects

No information available

13. Disposal Considerations

mable meanent methods	Waste	Treatment Meth	ods
-----------------------	-------	-----------------------	-----

Waste Disposal Method	Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If the wastes cannot be disposed of by use or according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Contaminated packaging	Refer to product label.

14. Transport Information

DOT

When shipped domestically (US) in bulk containers (>119 gallon capacity) this product is classified as a Combustible liquid as per 49 CFR 173.150(f). As such the documentation will be noted as Combustible Liquid, n.o.s. (Propylene glycol monomethyl ether), Comb Liq, NA1993, PG III. When shipped domestically by highway in non-bulk containers this product can be shipped as not regulated.

This is a US transportation regulation only; as US only recognizes combustible liquids, and this material is not regulated for international transportation.

TDG	NOT REGULATED
ΙΑΤΑ	NOT REGULATED

IMDG/IMO NOT REGULATED

15. Regulatory Information

This chemical is a pesticide product registered by the Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets, and for workplace labels of non-pesticide chemicals. Following is the hazard information as required on the pesticide label:

signal word	CAUTION
Ventilation Control	PESTICIDE APPLICATORS & WORKERS THESE WORKERS MUST REFER TO PRODUCT LABELING AND DIRECTIONS FOR USE IN ACCORDANCE WITH EPA WORKER PROTECTION STANDARD 40 CFR PART 170.

Harmful if absorbed through the skin. Keep out of Reach of Children.

International Inventories
